## **CELCOM HOME WIRELESS POWERS YOUR HOME WITH 1 TERABYTE OF INTERNET!**

**KUALA LUMPUR, 26 APRIL 2018** – Plug. Play. Enjoy. Celcom Home Wireless – a broadband service powered by Celcom's 4G network gives your home the best internet solution with generous data inclusions of more than 1 Terabyte of internet! Being the very first in the market, Celcom Home Wireless is so easy to use that even children can just plug and play to enjoy internet connectivity with average speeds of 30Mbps, all in a matter of minutes!

Celcom continues to prioritise awesome consumer experience not only in mobile connectivity but now with home connectivity! Available at selected key areas, Celcom Home Wireless is uniquely designed for residential homes with the convenience of a 'plug-and-play' modem and it does not require any wall-hacking or the long wait for fibre availability within your homes to access high-speed internet.

Azwan Khan Osman Khan, Deputy Chief Executive Officer, Business Operations of Celcom Axiata Berhad said as Celcom continues its focus on meeting consumer needs with an awesome experience, our new Celcom Home Wireless plans offer an affordable simple plug-and-play broadband solution with plenty of data.

“Within this digital era, many Malaysian homes have yet to have access to fast home internet and as this is our biggest data inclusion ever offered on our 4G network, it offers all Malaysians with the best value for fast home internet.

“Consumers can digitally enjoy more of what they love doing right at their own homes, without the fear of running out of data. Nothing beats having an internet plan that gives you so much data, including a 30-day return policy, for nonstop entertainment at home,” he said.

New and existing Celcom consumers may register for Celcom Home Wireless simply by visiting the nearest Celcom bluecube or Celcom Certified Partners nationwide.
