G2H Camera Hub

Retail Recommend Price
RM 399.00

Technical Specification:

Product Model	: CH-H01
Operating Temperature	: -10~40°C (14°F~104°F)
Product Dimensions	: 82.4×56.5×50.5mm (3.24×2.33×1.99in.)
Input Power	: 5V, 1A
Video Resolution	: 1080p
Wireless Connection	: Wi-Fi IEEE 802.11b/g/n 2.4GHz Zigbee
Total Power Consumption	: 5W (MAX)
Viewing Angle	: 140°
Local Storage	: Micro SD card (CLASS 4 or above is supported, up to 32GB storage)

BELLICORE

Easy to Set Up

G2H Camera Hub

140° ultra wide-angle lens 1080p high definition

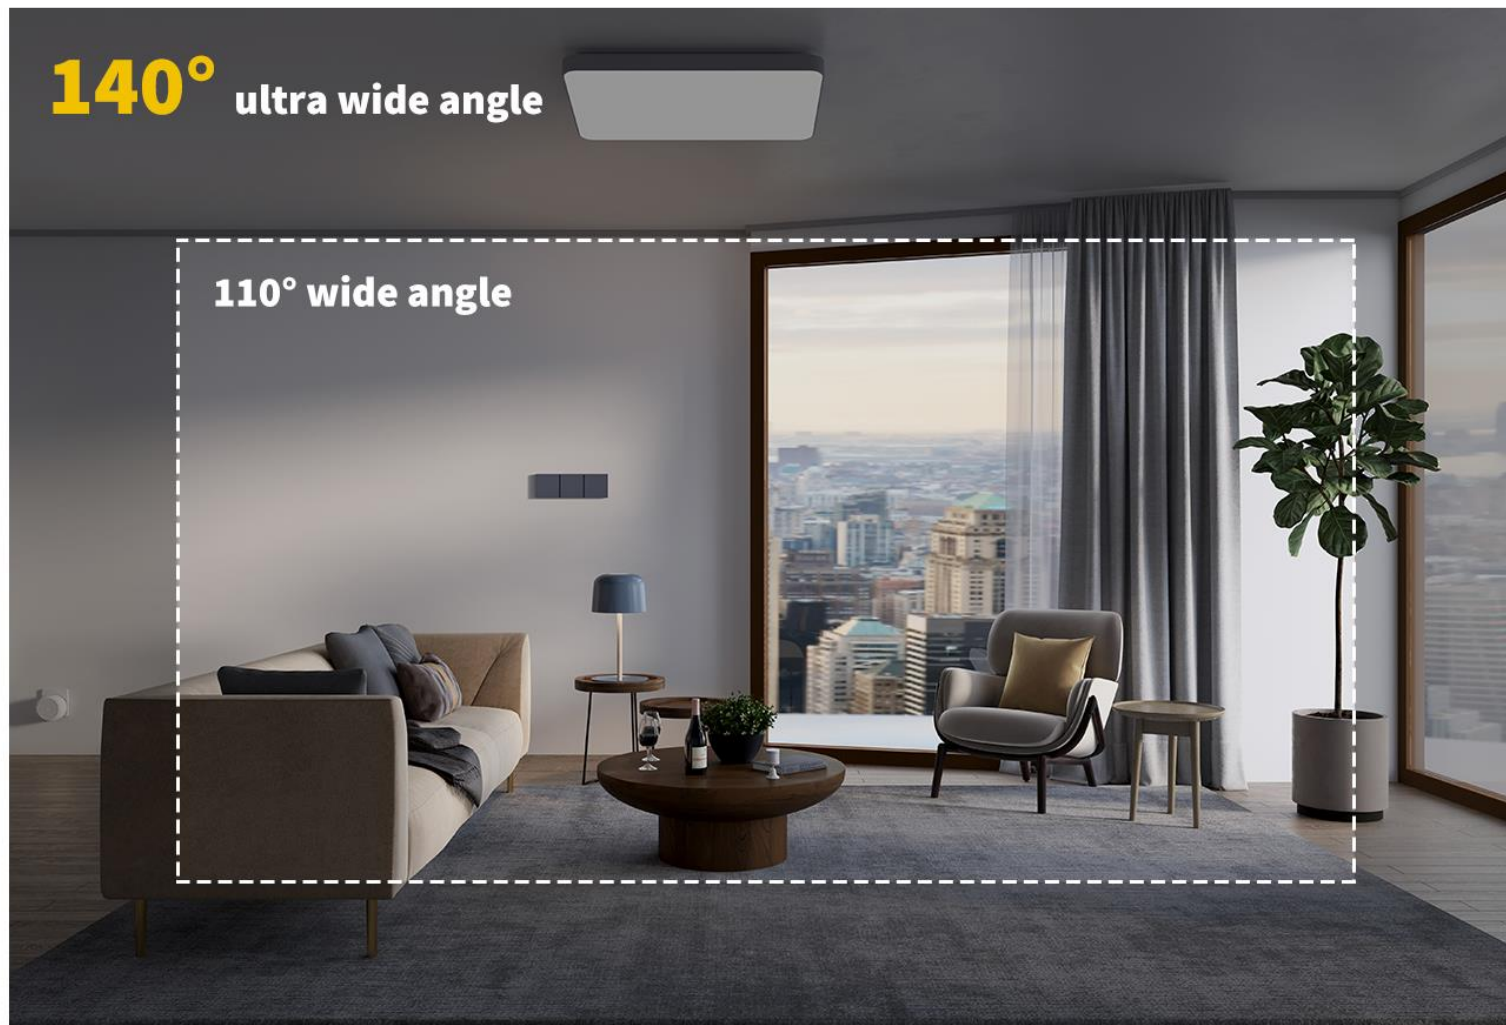

See more with a wide-angle lens and superior image quality. Camera hardware is specially configured to work with HomeKit Secure Video.

1080p

Full HD

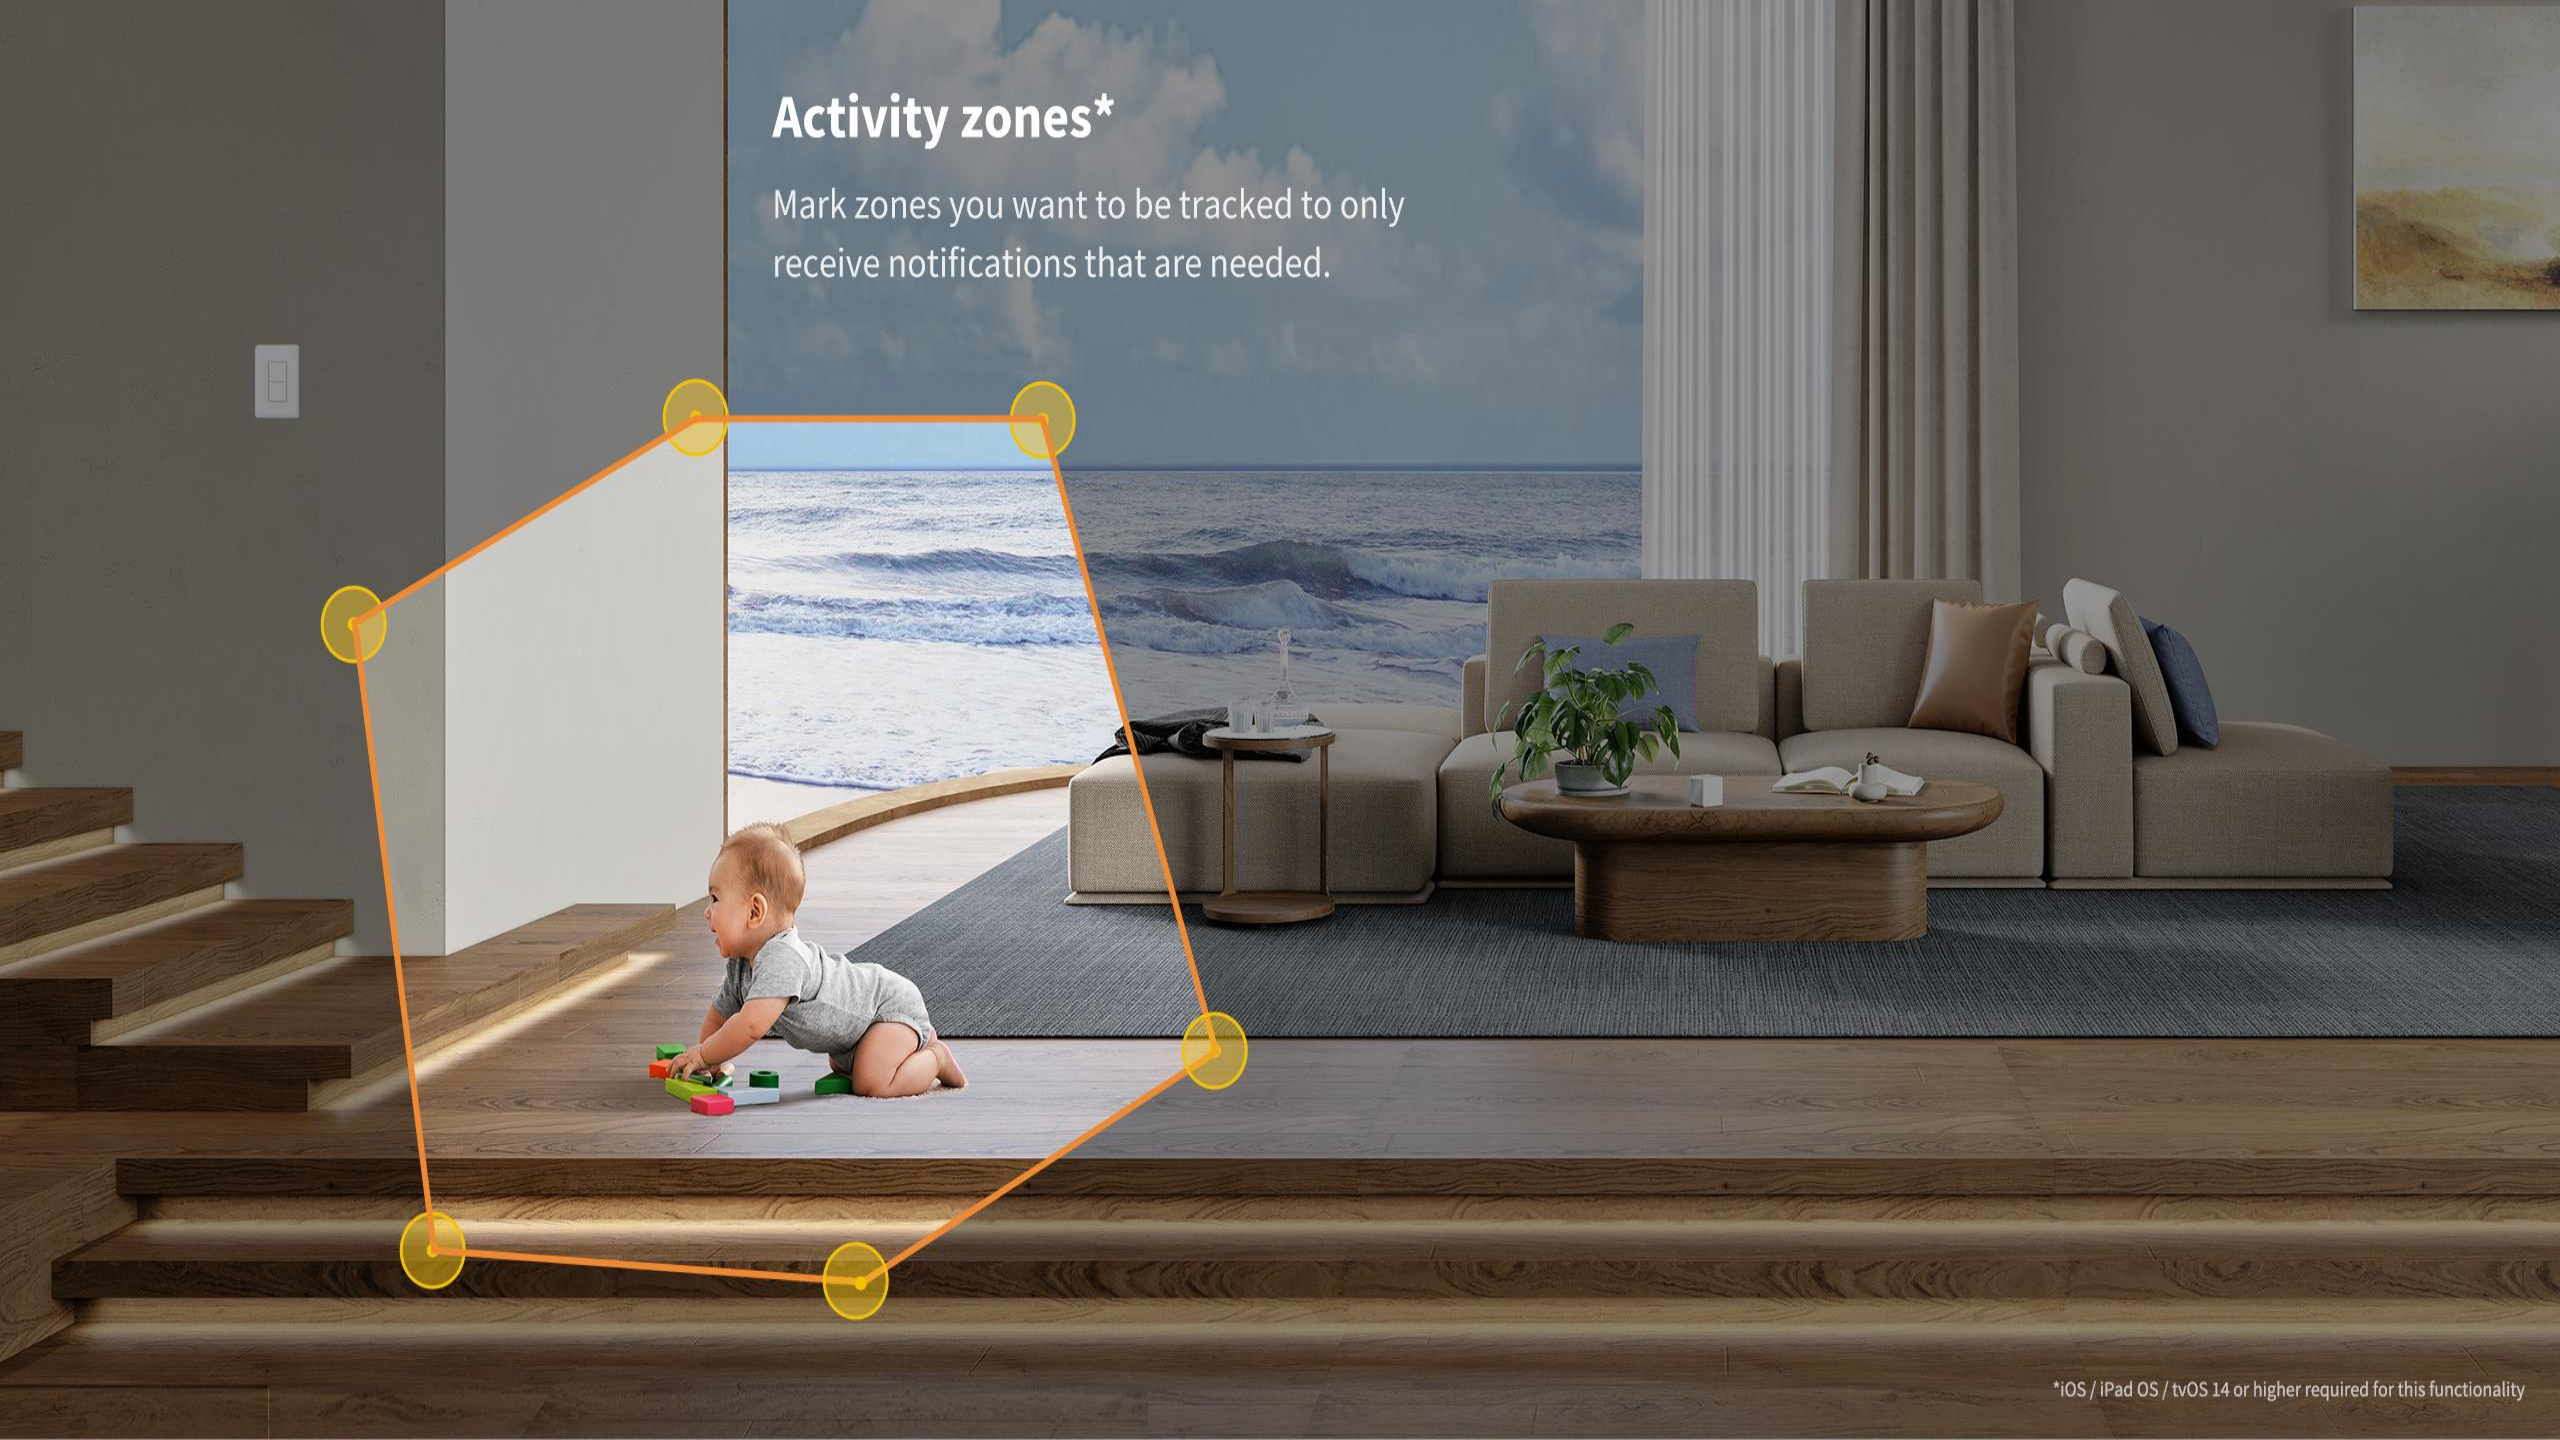

140°

Ultra Wide Angle

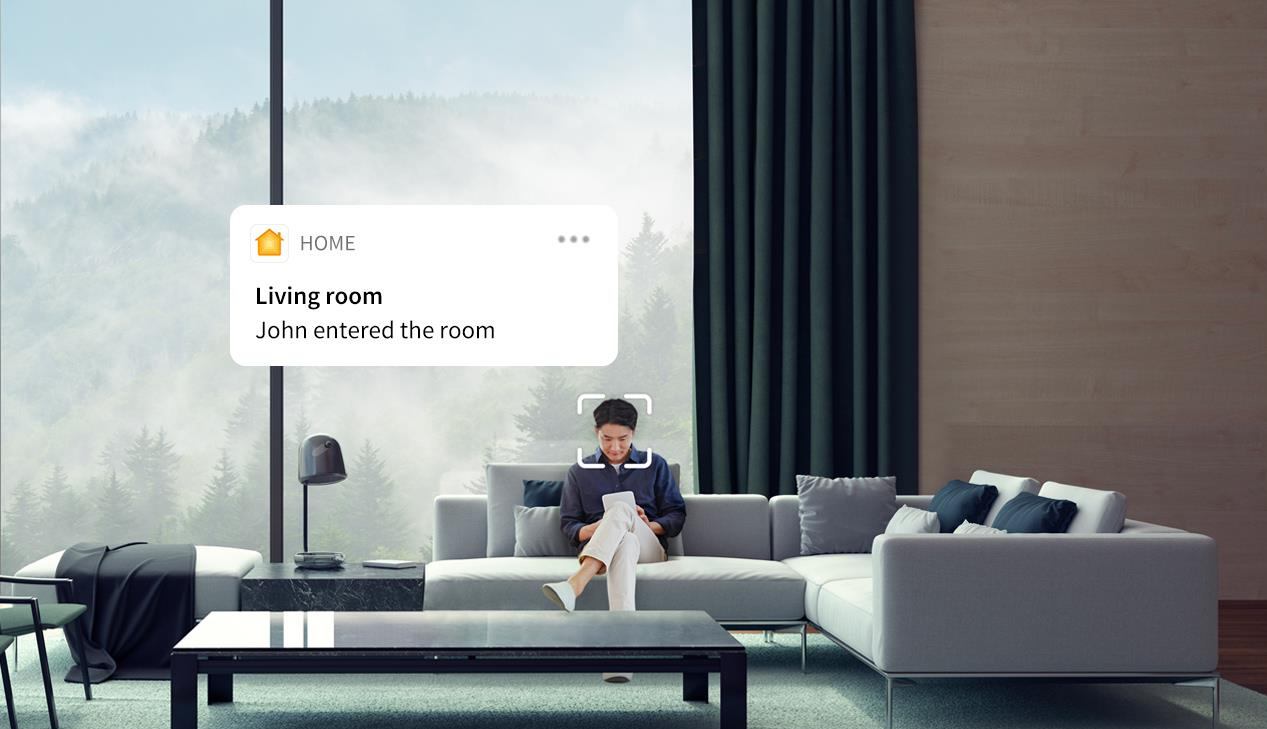

Activity zones*

Mark zones you want to be tracked to only receive notifications that are needed.

*iOS / iPad OS / tvOS 14 or higher required for this functionality

HomeKit-enabled two-way audio and one-click video messages

You can use the G2H to send high quality video messages and make instant voice calls. The camera is equipped with an omnidirectional noise-canceling microphone with a maximum pickup distance of up to 5 meters, and also has a maximum speaker sound volume of 85 decibels for a clearer communication.

AI facial recognition*

From your iCloud library, the G2H can turn on its AI facial recognition so that you can receive notifications when your family members arrive home.

*iOS / iPad OS / tvOS 14 or higher required for this functionality

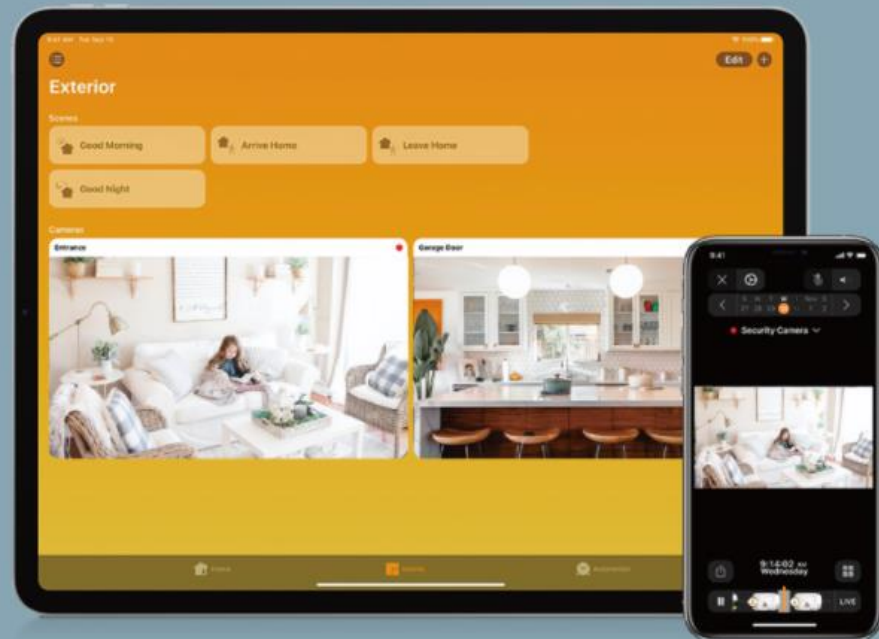

Full HomeKit Secure Video support

G2H fully supports HomeKit Secure Video including end-to-end encryption and other features. It has passed rigorous Apple HomeKit certification to ensure the highest security standards and better integration with other Apple devices.

*HomePod, Apple TV or iPad as a HomeKit hub and 200+ Gb iCloud subscription required

IR Night Vision

Clear image at night without visible light

Smart Home Hub

Connect Aqara devices and enjoy home automation and remote control

AI Face Recognition*

Can recognize faces based on your iCloud library

Activity Zones*

Define zones you don't want to be tracked

HomeKit Secure Video

10-days iCloud storage and integration are supported

HomeKit-Enabled Two-Way Audio

Communicate with your family members remotely

Correlation Event Timeline and Notifications

Triggered events will be marked on the video timeline and an event notification will be sent to your phone

140° Wide-Angle Lens and 1080p High Definition

High-quality video for better monitoring experience

*iOS / iPad OS / tvOS 14 or higher required for this functionality

Local Certifications	Yes*	China Certifications Only
One-click Remote Unlock	Yes**	No

* Please contact the official Aqara distributor in your country for more details.

** Some functions may not be available at the time of sale and will be added with subsequent firmware updates.

Aqara N100 Zigbee Edition

The updated international version of our most popular smart door lock. Now with Zigbee 3.0 support.

	High-Quality Design and Materials Frame and handle are made of anodized aluminum to provide a superior feeling and extra durability.	Ergonomic Fingerprint Reader The fingerprint reader is embedded in the handle and reacts instantaneously. Multiple unsuccessful unlock attempts will trigger the alarm.	Doorbell Function and Logs Pressing a dedicated doorbell button will trigger the ringtone on any of your Aqara Hubs and alert you even if you are far away.	Zigbee 3.0 Support Compared to the original Aqara N100, the N100 Zigbee Edition supports Zigbee 3.0, the fastest, most stable, and energy-efficient smart home technology as well as Bluetooth.	
	Works with Apple Homekit Has a built-in Apple security chip and supports the best smart home ecosystem for Apple devices.	Extra Long Battery Life Typically, the 8 AA-type batteries will last for more than 1.5 years. The battery is separated into two sections, and in case one section discharges, the another one will still work.	Mechanical Key and Type - C Port Even if the batteries run out, you can still open the Aqara N100 Zigbee Edition Lock by using a mechanical key or by charging it via the hidden Type-C port.	Configurable Automations The lock will record who opened it and by what method it was unlocked. You will be able to configure automations based on who has arrived home.	

The Aqara N100 supports a variety of unlocking methods to suit any of your family members and they will make the lock functional even if the battery is discharged.

Aqara Home / Zigbee*

* Some functions may not be available at the time of sale and will be added with subsequent firmware updates.

Precise 3D fingerprint reader is located right on the handle

Just open the door by pressing the handle, and the sensor will read your fingerprint.

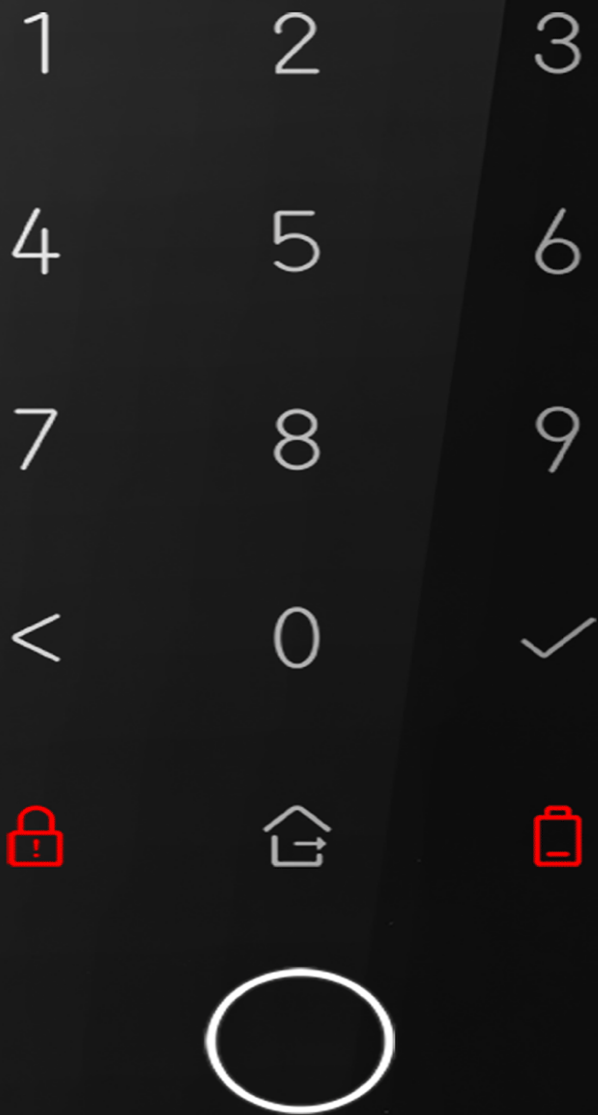

Fingerprint identification speed: ≤ 300 ms

Identification rate: up to 98.7%

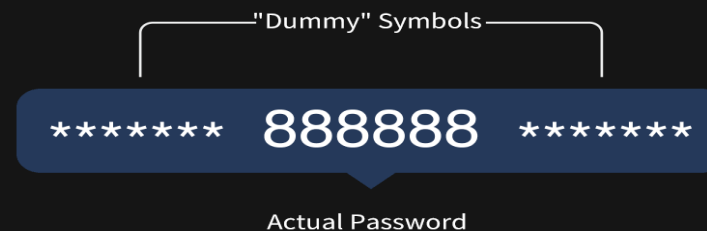

PRECISE
BIOMETRICS

Fingerprint algorithm developed by industry professionals, Precise Biometrics.

The Aqara N100 is equipped with a 10-digit keypad that is hidden for your protection.

Any enabled password can be accompanied by "dummy" symbols that will protect it from peeping. Image similar to this :

3 modes are supported*:

- **Permanent password**

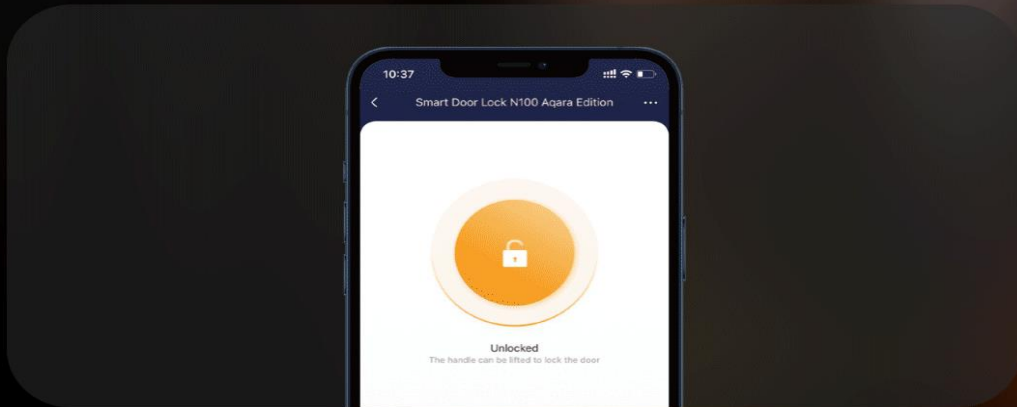

Each user can be assigned a 6-digit password.

- **Temporary password**

Even without an internet connection, the Aqara Home app can generate temporary passwords that can be shared.

- **Regular password**

Passwords can also be active during a specified period of time, for example, every Monday from 16:00 to 17:30.

Aqara Home / Zigbee unlock*

One-click remote unlock through the Aqara Home app. Requires an Aqara Hub.

Mechanical Key

The Aqara N100 can also work as a traditional door lock with mechanical keys coupled with a highly secure C-grade cylinder.

HomeKit Unlock

Apple device users can also unlock the N100 via the Apple Home app, using HomeKit secured protocol.

NFC

Xiaomi Mi Band NFC, NFC-enabled Xiaomi smartphone** and Aqara NFC cards can be used as an unlock method.

* Some functions may not be available at the time of sale and will be added with subsequent firmware updates.

** Xiaomi Mi Band 3, 4 or 5 NFC are supported, Xiaomi Wear app is required.

The Aqara N100 was developed to provide maximum security

1. Damage sensor

Immediate notifications in case of tampering with the front panel.

2 . Auto-lock

Locks immediately after the door is closed.

3. Anti-peephole break in design

Intruders cannot open the door by just pressing the handle from inside.

4. Master lock knob

In the case of locking, the door can only be opened by the administrator's fingerprint and password.

5. Electromagnetic protection

The hardware is resistant to Tesla coil attacks.

6. Three independent bolt sensors

Monitors door, main, and assistant bolt status.

7. Secure interconnection

Encrypted connection between rear and front panels

8. Anti-peep password

Input random symbols along with the 6-digit password for more privacy.

Integrated Smart Doorbell

- The N100 has a built-in doorbell button and a powerful speaker that will notify you when visitors arrive.
- No matter how big your house is, the doorbell ringtone can also be played by any Aqara Hub with a built-in speaker.
- Even if you are far away, a configurable notification will be sent to your phone and will be logged in your history.

Vibration Sensor

Retail Recommend Price
RM 89.00

Technical Specification:

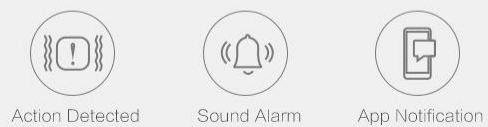

Product Model	:	DJT11LM
Dimensions	:	36 x 36 x 9 mm (1.42 x 1.42 x 0.35 in.)
Operating Temperature	:	-10°C~+45°C (14°F~113°F)
Battery	:	CR2032
FCC ID	:	2AKIT-DJT11LM
Operating Humidity	:	0 - 95%RH, non-condensing
Wireless Protocol	:	Zigbee 1.2
IC	:	22635-DJT11LM
What's in the Box	:	Vibration Sensor x 1, Sticker x 1, Quick Start Guide x 1
Battery Life	:	2 years

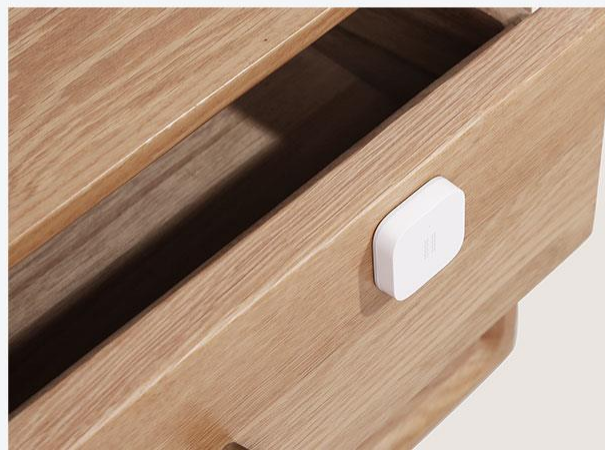

Advanced Technology

Aqara Vibration Sensor is embedded with a high precision acceleration sensor. The shell is made of anti-UV material and the color will not fade allowing for long-term usage. It consumes low energy and one button battery lasts about 2 years.

React to three actions.

Door & Window Sensor

Retail Recommend Price
RM 89.00

Technical Specification:

Product Model	: MCGQ11LM
Dimensions	: 41 × 22 × 11 mm (1.61 × 0.87 × 0.43 in.)
Operating Humidity	: 0 - 95%RH, non-condensing
Battery	: CR1632
Max Detection Distance	: 22mm
Wireless Protocol	: Zigbee 1.2
Operating Temperature	: -10°C~+45°C (14°F~113°F)
What's in the Box	: Sensor Unit x 1, Magnet x 1, Sticker x 2, Quick Start Guide x 1
Battery Life	: 2 years

Advanced Technology

Aqara Door and Window Sensor detects the current status of doors or windows via the distance of the magnets inside the sensors between the sensor and the magnet. The sensor is also energy efficient and one battery can last over 2 years under normal usage.

Advanced Technology

A Japanese infrared sensor is used to detect human motion through the moving heat source and the US Polyolefin Fresnel lens is used for high precision detection. The shell is made of anti-UV material and the colour will not fade allowing for long-term usage. The high quality flame-retardant material is used to improve safety.

Wireless Mini Switch

Retail Recommend Price

RM 69.00

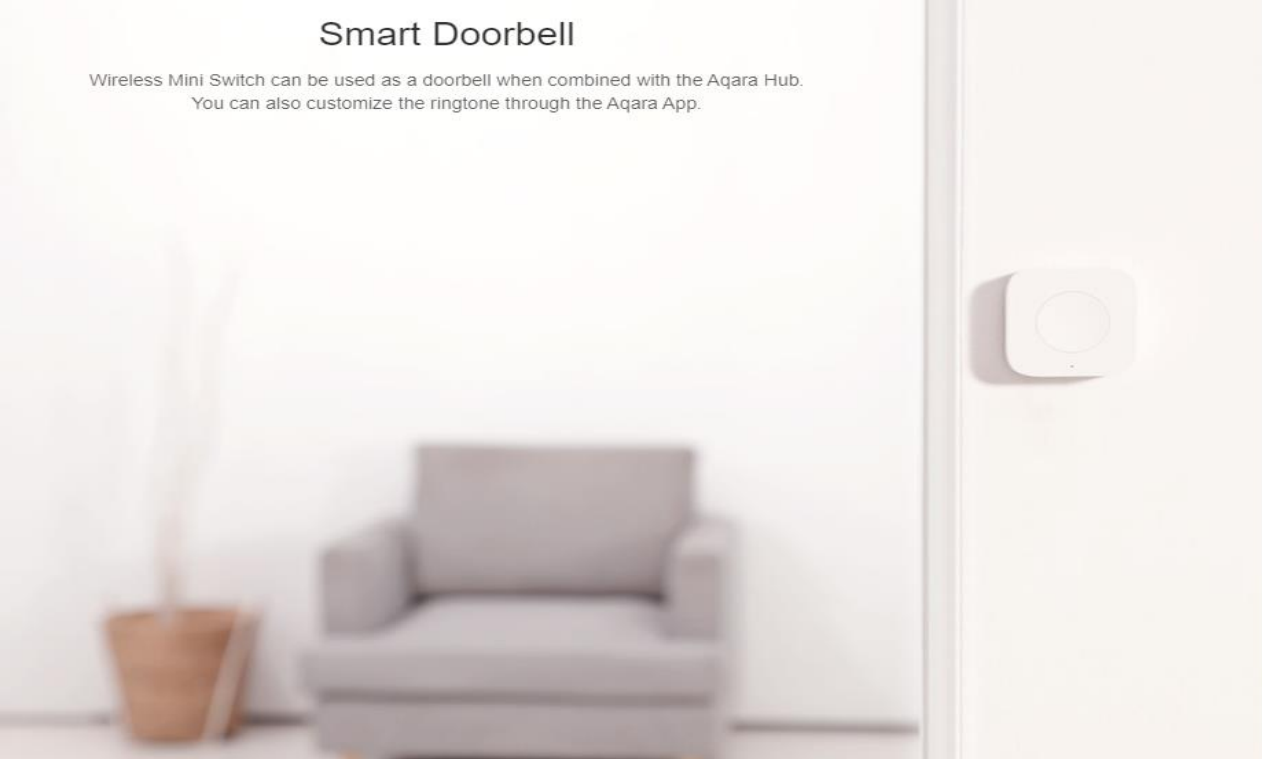

Technical Specification:

Product Model	: WXKG11LM
Dimensions	: 45 × 45 × 12 mm (1.77× 1.77 × 0.47 in.)
Battery	: CR2032
Operating Temperature	: -10°C~+55°C (14°F~131°F)
Wireless Protocol	: Zigbee 1.2
Operating Humidity	: 0 – 95%RH, non-condensing
What's in the Box	: Wireless Mini Switch x 1, Sticker x 1, Quick Start Guide x 1

Smart Doorbell

Wireless Mini Switch can be used as a doorbell when combined with the Aqara Hub. You can also customize the ringtone through the Aqara App.

Emergency Button

The Wireless Mini Switch can also act as an emergency button at home. When pressed, Aqara Hub will send out a push notification and sound the alarm.

Advanced Technology

Aqara Wireless Mini Switch is a remote control switch with compact design and low energy consumption. Supports up to 50,000 presses*. Adopts V-0 grade flame-retardant PC panel that allows for high temperature resistance.

* Results may vary slightly under different circumstances.

Water Leak Sensor

Retail Recommend Price
RM 89.00

Technical Specification:

Product Model	: SJCGQ11LM
Dimensions	: 50 × 50 × 15 mm (1.97 × 1.97 × 0.59 in.)
Battery	: CR2032
Operating Temperature	: -10°C~+55°C (14°F~131°F)
Wireless Protocol	: Zigbee 1.2
Operating Humidity	: 0 - 100%RH
What's in the Box	: Water Leak Sensor x 1, Quick Start Guide x 1
Battery Life	: 2 years

Advanced Technology

The outer shell is made out of anti-UV material and protects the sensor from discoloration. The sensor is also energy efficient and one battery can last over 2 years under normal usage.

IP67 Waterproof Rating

Aqara Water Leak Sensor meets IP67 dustproof and waterproof rating. It is guaranteed to work in humid and dusty environments.

Designed to Fit Everywhere

Aqara Water Leak Sensor can be placed anywhere according to your needs, guarding your home with its elegant design.
